**Course Description:**

Economics is a social science that studies choice behavior. Macroeconomics is a branch of economics in which the focus of the analysis is on the “macro,” i.e., big economic objects. It typically bypasses the analysis of individual decisions (which would be the topics of microeconomics) and studies directly the behaviors and interactions of aggregate economic variables, such as the GDP, economy-wide consumptions, national savings, inflation rates, and unemployment rates.

This introductory course will expose you to the fundamental concepts in macroeconomics and introduce you to the state-of-the-art understanding of what drive the economy to grow, what cause the inflation, why there is unemployment, and how government policies may influence it.

**Course Goals:**

Upon finishing the course, you are expected to be able to:

1. Demonstrate understanding of the basic concepts in macroeconomics.
2. Demonstrate understanding of the basic mechanisms driving the movements of macroeconomic variables.
3. Demonstrate the ability to apply the basic tools of macroeconomics to analyze and understand current macroeconomic events.

**Required Textbook:**

For students taking Macroeconomics only: N. Gregory Mankiw. 2017. Principles of Macroeconomics. 8th ed. South-Western College Pub. (ISBN-13: 978-1305971509)

### Grading Policy:

Grades for this course will be based on the following:

First Midterm Exam	30%
Second Midterm Exam	30%

### Academic Integrity:

Students are responsible for knowing policy regarding academic honesty. The University of International Business and Economics (UIBE) expects students to be honest in their academic work. Academic dishonesty is viewed as a serious violation of university rules and such misconduct is not accepted by academic community. In particular, students must refrain from plagiarism, cheating and collusion in connection with examinations, submitting substantially the same piece of work to different classes and must fully acknowledge all the sources of ideas and all assistance received in work submitted to the instructor for evaluation. Violation of the rules of academic honesty may lead to suspension or disqualification of the student from further.

### Attendance Policy:

Attendance will be recorded. Occasionally, due to illness or other unavoidable circumstance, a student may need to miss a class meeting. Any unexcused absence may impact on the student's grade. Moreover, UIBE policy is that a student who has missed more than one-third of a course will fail the course.
